**Advance Health Care Directive**

This booklet lets you name another individual as an agent to make health care decisions for you if you are unable to make them for yourself. It lets you say exactly how you wish to be treated. Use this booklet to inform your family, friends and physicians on the specific care you wish to receive, giving them peace of mind knowing they understand your needs and are giving you the proper care. If you have any questions about this form or how to complete it, you should consult an attorney.

**Is This Form Right For You?**

This form is for anyone 18 or older; married, single, parents, adult children and friends. It is a powerful tool that allows you to specify the treatment needs you have if you are unable to speak for yourself. You can use this form to designate a trusted “health care agent” to make decisions and communicate your wishes.

**Why Is An Advance Health Care Directive Important?**

It’s important to plan ahead and make your care preferences clear whether you’re young or old, healthy or sick. An Advance Health Care Directive is something you can do now to ensure your quality of life in the future, as well as protect your family and friends from the emotional burden of having to make difficult decisions without knowing your wishes.

**Filling Out The Advance Health Care Directive**

This booklet lets you name an individual as agent to make health care decisions on your behalf if you become incapable of making your own decisions, or if you want someone else to make those decisions for you now even though you are still capable. You are also allowed to select an alternate agent to act for you if your first choice is not willing, able or reasonably available to make decisions for you.

This booklet also lets you give specific instructions about any aspect of your health care, whether or not you designate an agent. Space is provided for you to express your wishes regarding your medical and emotional wishes should you become seriously ill and unable to communicate your needs.

Give a completed and signed copy of this form to any health care providers you may have as well as your designated health care agent, family, friends and loved ones.

You have the right to revoke this advance health care directive or replace this form at any time.
WHO I WANT TO MAKE DECISIONS ON MY BEHALF

If I am no longer able to make my own health care decisions, this form names the person I choose to make these choices for me. This person will be my Healthcare Agent and will make my health care choices if my doctors find I am no longer able to make health care decisions on my own.

Your health care agent may not be an operator or employee of a community care facility or a residential care facility where you are receiving care, your supervising health care provider, or an employee of the health care institution where you are receiving care, unless your agent is related to you or is a co-worker.

Your agent will have the right to:

- Consent or refuse consent to any care, treatment services, or procedure to maintain, diagnose, or otherwise affect a physical or mental condition. This includes medical care choices such as tests, medicine or surgery for the purposes of diagnosis and care to keep you alive.
- Choose or discharge health care providers and institutions.
- Agree or disagree with providing, withholding, or withdrawal of artificial feeding and fluids and all other forms of health care, including cardiopulmonary resuscitation (CPR).
- Move you to another state to get the care you need or to carry out your wishes.
- After your death make anatomical gifts (donation or organs/tissues), authorize an autopsy, and make decisions about what will be done with your body; subject to restrictions you indicate in this directive.

**END-OF-LIFE DECISIONS:** I direct my health care providers and others involved in my case to provide, withhold, or withdraw treatment in accordance with the choice I have marked below:

- **Choice Not To Prolong**
  I do not want my life to be prolonged if the likely risks and burdens of treatment would outweigh the expected benefits, or if I become unconscious and, to a realistic degree of medical certainty, I will not regain consciousness, or if I have an incurable and irreversible condition that will result in my death in a relatively short time.
  OR
- **Choice To Prolong**
  I want my life to be prolonged as long as possible within the limits of generally accepted medical treatment standards.

**LIFE-SUPPORT TREATMENT**

If I am likely to die within a short period of time and life-support treatment will only delay my death (choose one of the following):

- I want to have life-support treatment.
- I do not want life-support treatment. If it has been started, I want it stopped.
- I want to have life-support treatment if my doctor believes it could help. But I want my doctor to stop giving me life-support treatment if it is not helping my health condition or symptoms.

If I am in a coma and am not expected to wake up or recover, and I have brain damage and life-support treatment will only delay my death (choose one of the following):

- I want to have life-support treatment.
- I do not want life-support treatment. If it has been started, I want it stopped.
- I want to have life-support treatment if my doctor believes it could help. But I want my doctor to stop giving me life-support treatment if it is not helping my health condition or symptoms.

If I have permanent and severe brain damage and am not expected to get better, and life-support treatment would only delay my death (choose one of the following):

- I want to have life-support treatment.
- I do not want life-support treatment. If it has been started, I want it stopped.
- I want to have life-support treatment if my doctor believes it could help. But I want my doctor to stop giving me life-support treatment if it is not helping my health condition or symptoms.
OTHER WISHES: If you have different or more specific instructions other than those marked above, such as what you consider reasonable quality of life, treatments you consider unacceptable, write them in space provided below:
